Chetan Business School, Hubli

Message from Director:

Dear Well Wishers.

I am pleased to present the year book Sankalp'19 our house magazine to you which covers the entire activities, events and happenings in year 2018-19 at Chetan Business School.

It is matter of great pleasure to see the intellectual capital growing in the institute with Dr. Mrityunjaya securing his Ph.D and thereby

joining the existing 8 Ph.D holders. This makes Chetan Business School one of the rare B Schools with so many Ph.D qualified faculty.

The year has seen many experts drawn from Corporate and other administrative background coming to share their experience with the students which has added lot of value in the learning process.

The institute has delivered all the services those were promised to the students. The Foreign visit to Malaysia would give lot of mileage in building the confidence among the students. The other industry visits and out bound programs gave enough boost in networking efforts.

The students were given electives from the new syllabus coming into force. Not only that such of those electives which were not opted due to the limitation of scheme, those were given in capsule course form. In short all the electives were touched upon.

The placement season was very good this year. In all 45 companies came to the campus and 80 offer letters were issued to the students. The placement spread over 10 months. The institute helped other fellow institutes in placement by pooling the students from other institutes.

The culture of the institute was kept intact with all the settled events and programs done as per the schedule. The national festivals, the foundation day, the sports and management events and likes gave enough opportunity to the students to get into action learning.

The institute made all the efforts to put its events and happenings in media on regular basis. Media was kind to give enough coverage. The social media was kept up to date with the regular posting.

In short the year was very fruitful and rewarding to all the stake holders.

I thank all the students, staff, corporate, parents, management, guests, media, University, Govt. and all the well wishers for their support and look forward to their blessings in the coming year.

Thanking you and Kind Regards,

Dr. Vishwanath Koravi Director

CBS

"The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires." - Wiiliam Arthur Ward, Noted Author of Maxims

I feel privileged for being part of Chetan Business School, Hubballi where education doesn't revolve merely around the marks and grades; instead, learning here translates into the holistic development of every individual. In the last two years, my experience at Chetan Business School has been

Miss. Arshita Dubey

remarkable and the two months of SIP, the Summer Internship Project, in particular, has been exceptional.

Thanks to expert guides and mentors, in eight weeks period of SIP, students learn a lot more than the preset curriculum meant for the classrooms. Similarly, with a Bachelor of Commerce background, my knowledge of the project process was limited and if not for the relentless motivation of Dr. Mrityunjaya B Chavannavar, my guide, it would virtually have been impossible to put together my SIP – A Study of Business Confidence Outlook of MSMEs – An Observed Fact from Gokul Industrial Estate.

The project involved gathering a large set of data from ten different organizations, a challenging task for any postgraduate student. The work involved meeting ten different entrepreneurs from various line of work, networking with several individuals, collecting crucial statistics and getting the questionnaires filled with essential data. During my project visits, I have made an honest effort to understand the confidence level of entrepreneurs, and future business opportunities using different statistical tools. The project was successfully completed within the allotted duration.

With the support of Dr. Mrityunjaya B Chavannavar, my project paper got selected to be presented in the 4th International Conference on Economic Growth and Sustainable Development: Emerging Trends at SDMIMD, Mysuru, India.

The conference witnessed an overwhelming participation of delegates from across India, and abroad. Out of over 350 papers presented on various themes, my project was one among the 200 selected. But the highpoint of the conference was that out of everyone, I was the youngest to present the paper and I feel elated to have achieved this feat. During the conference, my panel session was presented by a scholar with over 20 years of experience, the judge was from Bangladesh who gave a very positive feedback of my project and in the two days that followed, I interacted with several academic leaders, learnt from experts and networked with fellow students.

I like to take this opportunity to sincerely thank Dr. Mrityunjaya B Chavannavar for being a guide par excellence. His interest that helped me take-up a task which virtually looked impossible to achieve, his patience throughout the project and his leadership identifying the right opportunities are the key reasons for the success of my SIP.

I dedicate my Summer Internship Project achievements, the Best SIP for the Year 2017-19 and an opportunity of presenting the paper on a global platform, to Dr. Mrityunjaya B Chavannavar; without his mentorship, it was impossible to have achieved any of these feats.

CBS CBS

"LEADERS ARE BORN OR MADE"

This is the question always in our mind that I'm a born leader or made..... But there are some qualities where I was born with those leadership skills and some which I developed as time passed on.... The proud moment in my life when people calls me CBS IT. I had always an interest in computers and some digital things. I love learning new technology. so whenever there used to any problems in Chetan Business School related to technology I was always there to solve it..

Mr. Shyam Naik

I have always been there at the back end of every event handling the technical things. I have leaded that department. I was the main coordinator for a Navratri event that is "NAV-JALSA 2K19" in CBS. we conducted an inter-college Navratri event where we had dance competition and ramp walk where I had lead that whole event with all the arrangements. I especially thankful to Dr. V. M. Korvi sir because he allowed me to bring sound arrangements from Sirsi.

There is not a single event where I was not a part of because always in every event technical department was mine...... Being a leader has always been tough because there is advantage that we have to do nothing just get the work done from others... and disadvantage is that it is not easy convincing people to do the work but I have always enjoyed all the work being an successful leader.....

Chetan Business School is such a wonderful platform for those who are interested in their field. I'm the best example for that. I learned many technical things by the help of our beloved lecturers. Whenever the program planned... Lecturers calls me and they assigned technical works. My interests + Lecturers support makes me feeling proud. Because my works like invitations, banner design, certificates, promo videos, photography, sound arrangements, welcome slides etc... These are the main highlights in the program. Two years journey made me lots of changes. Every student is having his own hidden talent. But institutions like Chetan Business School provides stage for showcase their talent.

Thank you

Chetan Business School, Hubli

CBS |

Life at Chetan Business School

Two year of togetherness. They believe is that we made each day count for the lifetime memories to be cherished... There were too many interesting twists and turns which nobody can ever forget, Each one has their own story which made life fill with colours of joy and happiness.

Miss. Ashrita Jain

A learning experience which everyone has gone through in the

form of love, pain, hurt, cry, emotional breakdown, happy, sad, fight, celebration mode, madness, crazy, misunderstandings.

Started with unknown feeling for each other and now ending with inexpressible feeling for each other.

We played different roles and now are proud to part of Chetan family.

We lived our moment and made it a beautiful journey which can't be put into words!!! No matter what happens, some memories can never be replaced.

Our mentors who always guided us for all new things to be learnt from life and how we can explore the world which is filled with competition and mystery.

Their provide you a friendly nature to express your feelings and interest and always support to achieve your dreams.

Special Thanks to all of you for making our life reality.

The moments we share are the moments we keep forever.

Placements at Chetan Business School

It's not what you achieve, it's what you overcome. That's what defines your career and you reach your end goals. Every Student after completion of MBA looks to settle down in his/her career, So Chetan Business School provides the best opportunities to get ahead in life and to give a kick start to corporate life.

Miss. Ashrita Jain

Placement acts as link between the academic program and

entry into employment level. Inviting various companies for campus recruitment. Placement cell is meant for students only it acts as student's cell, it's for the student. The overall experience, with placement cell in two years of MBA course, is that what a student's needs to carry to fit into the corporate world. The placement cell provided various pre-placement training on (soft skill, logical reasoning, aptitude test, group discussion, mock interview) counseling of students as to which type of career to enter to, with coordination for placement you learn what are the expectations of the companies as the right requirement and the skill set as well in the current market and you also learn each and every company has its own process of interviewing for employment. The companies explain each aspect in the preplacement talks, and gives feedback for improvement.

The placement cell also organizes training program or placement officer to get the best of companies and to train them on the duties and responsibilities of placement officer.

In Chetan Business School there is 100% Placement. The only institute which organizes event to hand over "offer letters "called Yashas - Chetan Career Enhancement Program (offer letter handing over ceremony). The Institute allows students to join the company before the completion of course and helps them in all manners.

To enhance your career and to seek motivation for what you want is the key to your happiness and Chetan Business School provides you the right platform.

CBS

RACE-Todays Digital Marketing era

The use of the internet and other digital media and technology to support "modern marketing" has given rise to a bewildering range of labels and jargon created by both academics and professionals. It has been called **DIGITAL MARKETING and RACE is Reach, Act, Convert and Engage.** So digital marketing is about utilizing digital technology to achieve marketing objectives.

Why does it matters in MBA as a added skill ????

Now a days digital marketing also matters while choosing MBA colleges because everything seems to be on the feet's of digital era so MBA graduates needs digital marketing skills .When compared to traditional marketing, measurement metrics can be utilized in digital marketing. It provides a platform to job seekers and who want to become an entrepreneur. To make a career and succeed in life digital marketing field is the best way to reach the heights.

Why I chosen digital marketing course in CBS

First of all I am interested in Marketing and that too in digital marketing as now a days this field is booming since the services are provided at the door steps. In Nov 2018 Prof.Gururaj Patil introduced this course and took initiative to have a discussion with Mr.Sameer Desai from Pebble connect –Digital Marketing training Institute from Bangalore and our Director Dr.Vishwanath Koravi gave positive response and support to start Digital marketing course in CBS for our batch. As a batch of 15 students ,digital marketing course started in November 2018 among them I was the one from BE background since marketing and HR specialization was my cup of tea ,I was more interested to make my career in Marketing and so I opted to start with this course.

Initially course started in the month of Nov 2018 and classes used to held on Friday and Saturday for 3 hours per day. and later due to time bound of 3rd semester KUD exams and foreign trip classes was not taken for 1 month on temporary basis. After our foreign trip classes again started in the month of Feb 2019 ,because of completion of 4th semester we agreed to attend on Sundays too, while classes used to

Chetan Business School, Hubli

continue many hurdles came in between, like attending college interviews, poor internet connectivity of Wi-fi, because of these hurdles we used to attend classes in KLE IMSR and IBMR to complete the course. The discussions regarding course completion, availability of staff, information regarding recent job opportunities used to happen in our whatsapp group, finally we completed the course in the month of March 2019 and with that parallelly we completed E-mail Marketing, Content Marketing, SEO, Google certifications from Hubspot, under the guidelines of Asmat Madam, Sameer Sir and Gururaj Sir.

"Career is not a destination, It's an continuous journey!!!!!!!!

To have a bright career one can choose digital marketing field

CBS |

"Sometimes you win but sometimes you learn and that is SPORTS"

Sports is all about winning and losing where one team wins and other looses but that lost match has given many learning's to that team. I have loved sports since my school days as we all have sports in our school. My medals were fixed where I would get many prizes in sports as I was not

Miss. Twinkle Ponda

that good at academics. I have got many prizes in sports and extracurricular events. I left sports after school but sports never left me that am the reason I got "BEST SPORTS GIRL 2019 in CBS".

In this journey of sports I have made many memories I never liked cricket but as I learnt how to play it in Chetan business school. Now I like playing cricket too. I came across many sports person from my batch like SHANAWAZ who is a sports person who plays for so many teams in tournaments who can play continuously for 3 days without taking rest, he is the person who has motivated me for sports. Next is DARSHAN PUROHIT who plays cricket as his life, he is injured so badly but does not leave playing cricket at all. He has taught me to play cricket. There is one more person who will miss classes his attendance being so low but he has never missed any sports event in college that is SUHAS who plays cricket, volleyball and many more games next comes the shortest guy of my batch MOHSIN all tease him because of his short height but when he plays volleyball no one can take eyes of him. There is one more person who has inspired me for indoor games like badminton and table tennis that is SAMARTH. My other classmate for whom everyone call as LADY DON that is ANJALI who plays all the sports and weight lifting too to show boys that girls are no less than them.

These all people have motivated me in one or the other way I would like to thank them all. I would thank one more person the most that is ANIRUDDHA sir who has

Chetan Business School, Hubli

inspired me the most the way he plays all the games there is no single game which he does not play we get to see a great match when sir is in the ground he has been so supportive for organizing all the sports events in our college in 2018 we had intracollege sports called "SAMAR" where we all the students are put in different teams and our lecturers are our team owners where we play sports against each other forgetting about our friends as they are our opponent in the ground. The sports were throw ball ,volleyball ,lagori ,cricket, chess, carom, TT etc. same had been conducted in 2019 where we played so nicely as it was our last sports in this college.

In 2018 we had organised inter-college "SAMAR" where we had invited so many colleges from UG and PG and we got a great response from both the section. We had arranged for mini- cricket for boys and throw ball for girls, we got above 20 college teams participating and competing to prove themselves best to win the battle in the 2 days sports event which had a great success and I was a part of it for organizing this event. It has been a great sports experience journey in this college with such great sports players. I wish all of them a very great luck and would request them never stop playing sports even I would request sir to never stop playing and keep on inspiring the students for sports and conduct as many events and invite us for the events. Sir please organize some sports for passed out students so that even we will get a chance to play again....

CBS

As a student of Chetan Business School where I spent two years I feel very happy to share few things.

When the company Pon Pure Chemicals came to the campus for selection I took the placement opportunity at the advice of placement Director. I got short listed and felt very happy. I was one among those who got the chance to join that company for my MCP for two months.

Mr. Kadappa P

I was looking for doing my project work in Finance area but my job profile was related to marketing and I was given the marketing area of Peenya Industrial estate in Bangalore. The work was to visit the existing customers to find out the feedback and potential for the lubricants which the company was selling to these customers.

I was getting tense because my MCP was lagging and the work in Finance area was not getting started.

Then I spoke my faculty guide on phone and explained by difficulty. After listening to me patiently my guide suggested me to do the project in marketing because he felt that it would fit my job profile that was offered to me. Within no time my tense moments were converted into my strengths by this advice. I did my project on potential for Lubricants which helped me to gain the vital market knowledge about the product that I had to deal on my job.

I thank my guide and all at Chetan Business School for the two year of my experience. Getting placement was a wonderful help for me.

I wish this college all the best.

CBS

Academic process at Chetan Business School.

The Academic process at our college is very well designed. At the beginning of each semester, there is a very well designed lesson plan for each subject. There is mention of date, methods, module and deliverables and session in the lesson plan. The lectures are designed in such a way that

Ms. Anagha Nadi

everything that is right from basics to its depth is covered by the respective faculty. Classes are learning cum fun- filled so that, we as students gain interest in learning the subjects. All the faculties are well versed in their respective fields and we received very good guidance from them in every walk of our 2 year MBA journey. There are guest lecturers who visit our college and deliver lectures regarding various concepts.

I feel very fortunate to be a part of Chetan family. In this span of 2 years gained a lot of knowledge in terms of both theory and practicle. We are encouraged to conduct as well as participate in various management events. There are various parameters on which a student is assessed namely assignment, class participation, mid-semester exams, event coordination etc. We got a good exposure to corporate life during Summer In-plant project and Major concurrent project. Projects are being encouraged to be published in various journals as it adds value to the students' career.

Each and every student is given personal attention so as to know which field we are interested and in which field we are good in. Accordingly our Mentor guides us and makes us capable of taking our own worthy decision. This is how we are made ready to enter the corporate life. There is a very friendly and positive vibe I personally get on entering the college. All the faculties, may it be teaching or non-teaching are very cheerful and friendly.

Chetan Business School, Hubli

Hence I am glad to be a member of Chetan Business School family. I would like to extend a deep gratitude to all the faculties for imparting such precious knowledge and always being with us to guide us achieve our career goal and encourage us to lead an ethical way of life.

Thanking You.

Learning MBA at Chetan Business School brought lot of changes in my life style. It was a wonderful experience. I gained both academic and practical knowledge. I express my appreciation to my mentor who gave me an opportunity to do an open project and inspired to study a very new subject in Insolvency and bankruptcy Code.

It was a different experience doing the open project as a part of MCP. I learnt new things and gained new knowledge.

I thank all my teachers and guide and all the staff for their support and help.

I am glad that I am a student of Chetan Business School and did my MBA here.

Talk on 'control systems, practices in organisation' held

HUBBALLI: Hotel Mayur Aditya's Chief Operating Officer Hemal Desai delivered a talk on 'Control Systems & Practices in Organisation' held at Chetan Business School here on Thursday.

Giving an overall picture of the hospitality sector, and how it contributed to the Gross Domestic Product (GDP), Desai said, every sector had its own role to play in development.

MBA graduates who were planning to make a career in the hospitality sector should

have the right manners and attitude to achieve success.

Explaining various control systems and practices followed in his organisation, he said, practice was a way of doing something, and control was a method to regulate the product of the organisation would come out smoothly and successfully.

Prof Ramakant Kulkarni

Prof Ramakant Kulkarni proposed a vote of thanks.
